OUR FOOD FISH INDUSTRY.

The annual report of the state fish oners form sh a statistics that are highly gratifying and encouraging to the people of the Pacific coast, and articularly Oregon and the lower Co-mbia district. Speaking of the propagation of fish, the report says; "We still have as much faith in it us ever, and believe it is the only salvation for

ment of cases before the courte; but for several years past he has been known in this state as a politician, and one of the most unscrupulous sort, and we do not believe in elevating such men to the judiciary. The legislative and executive functions of government are now controlled by partisans, but we should hold the judicial—upon whose decisions the rights of every citizen are dependent—free from all extraneous interests. For this reason, we denote the suppointment. We presume he possesses the necessary qualifications and ability, although a life-long republican, we cannot endorse the appointment. We presume he possesses the necessary qualifications and ability, although a life-long republican, we cannot endorse the appointment. We presume he possesses the necessary qualifications and ability, although a life-long republican, we cannot not be provided by partial and the proposed of the case of the way our men were treated, but they are afraid to express themselyes, for they well knowhow the authorities would turn on them. The crew of the Baltimore, through the Sun, want to express the gratitude of the crew of this abip to Captain Schley, who made the bride entered the room leaning upon the arm of her father, preceded by the two maids of honor, while from another entrance the groom, accompanied by his beat man, although a life-long republican, we cannot endorse Hon. Joseph Simon as although a life-long republican, we canuot endorse Hon. Joseph Simon as the proper person for the vacant judge-ship.—Times-Mountaineer.

THE Oregon delegation has endorsed Simon for the Federal judgeship an l the recommendation seconded by Governor Pennoyer and Jim Lotan and ominent republicans of this state. We don't care if it is. The apointment would be as much of an in sult in its way to every clean republican in the state as would the nomination of David B. Hill to the presidency to every clean democrat in the nation The only conceivable reason why Pennoyer and Lotan should recommend limon for the position is that if Simon is appointed, the dispatches say, he move to California, and Oregon will get rid of him. No, no, the country does not want Federal judges whose chief qualification is that they are smart and unscrupulous political bosses, but Oregon would be perfectly reconciled if Simoa should go to Calitornia or-Canada.—The Dalles Chron

The news comes from Washington that a strong opposition has been or ganised against the appointment of Joseph Simon as circuit judge, and that his chances are rapidly growing less. We are glad to state that Mr. Simon cannot domineer over the pol-iticians of the reet of the Pacific coast; for if he could his appointment would be certain. It is now claimed that Senator Allen of Washington is the most likely to be honored by the ap-

One evening last week a little sport was arranged in the shape of a race between a man on foot and a horseman, to run fifty yards. While it was done on the quiet, yet a number of persons got wind of what was going on and were on hand—not caring for the race. A grassy place was selected and the distance measured off when the contestants took their positions facing the opposite direction from what they were to run. When the signal was given, the man, in making a quick turn, fell down but quickly gathering himself, started, only to silp and fall again in a short time, the second fall inducing him to give up the race. Does it Contain Ammonia?

Powder contains ammonia. We would have supposed that

the emphatic condemnation of ammonia baking powders

by the most eminent physicians throughout the land, and

the fact of the three leading chemists of Minnesota mak-

ing their report to the Senate Committee recently showing

that bread baked with the "Royal" contained ammonia

and the hostility now being manifested by the public

against all ammonia and alum baking powders would have

an indispensable article in every kitchen, it is gratifying

to know that there are brands in the market to which no

suspicion of any kind has ever attached. Dr. Price's
